

RYDE

TOWN COUNCIL

COMPLETION REPORT /PROGRESS REPORT

1 - Project Details

Project Title:	ROOF REPAIRS
Organisation:	RYDE SEA CADETS
Total project costs £	£6936
Total grant award £	£1500

2 – Project outputs / progress

Please tell us what your project did - ie the events, services or products that it delivered or please give us an update on the progress of your project.

We were going to replace the flat roofing only however once the works commenced, it identified the source of an historical leak. This constant ingress of rainwater had created areas of black damp and damage to internal walls and paint work. The tray between the two sections of the building have been replaced on this occasion.

We have recently had several downpours of rain and instead of attending the unit armed with buckets and mops before the cadets come on board, we now have a dry unit which can be redecorated. Although the work so far has only replaced the tray and brickwork that joins the two sections of the Old Fire Station at least this has cured the leak. We do intend to replace the flat roofing so this project is very much ongoing.

3 – Project outcomes

Please tell us about the impact of your project - ie what changed as a result of the work.

This unit is situated in a deprived area and this funding will enable us to direct a greater share of its fundraising towards supporting and training our young cadets. Once decorated, it will also present a more professional well run organisation to attract further recruitment.

We will continue to work on the infrastructure at the unit and to bring it up to a better and healthier standard for our volunteers and cadets. Our HQ will then be more attractive to other voluntary organisations who may wish to use it.

4 - Your Declaration

The information given is true and complete and we confirm that the money has been used for the specific purpose for which the grant was given.
